

iW90-DAT

Dispersion Application Tool

Covid 19 brings a new challenge to the cleaning industry, and ICE has your solution. The mobile DAT or Dispersion Application Tool is the preferred device to help your organization combat this virus. The DAT comes standard with a 20 gallon tank that makes access and cleaning simple, as well as a powerful 100 PSI on demand pump. With its 13 foot polyurethane recoil hose, the DAT makes fast work of getting into hard to reach spots. With the DAT, you can quickly and easily disperse the right chemical solution to either disinfect or sanitize. Rapid setup, effortless use and high speed reloading are three more benefits that make deploying the DAT the right choice for your front line battle.

iW90-DAT

Benefits

- Cleans up to 300,000 surface square feet per tank
- Runs continuously for 2 hours 46 minutes, 20-gallon capacity
- 100 PSI on demand pump
- 13' polyurethane recoil hose
- 110° flat fan spray nozzle
- 10" rear stair climbing wheels for easy transport and maneuverability
- On-board tool storage and cord wrap for easy access
- 50' power cord, safety yellow

Technical Specifications

Model Type	USA	iW90-DAT
