

RS26L+

Rider Auto Scrubber

The RS26L+ rider scrubber, designed for large floor surface areas, is fully automated with a one button programmable switch for training-free operation, and a three-setting pad pressure of up to 165 lbs. for maximum cleaning efficiency.

Our state-of-the-art fleet management software, i-Synergy, provides real-time access to valuable data including location, operating times, charging times, and confirmed clean—all through user-friendly reports that can be emailed directly to you.

The RS26L+ features a digitized (1% to 5%) solution mixing system making solution composition changes simple, and the compact design makes it easy to maneuver in a variety of spaces.
