

RS32+

32" Rider Scrubber

The RS32+ rider auto scrubber is the wider and faster big brother of our RS26+ model. Like the RS26+, the RS32+ is fully automated with a one-button programmable switch, a three-setting pad pressure of up to 165lb, and our digitized (1% to 5%) solution mixing system. Its greater width and speed allows for quicker work while still retaining maximum maneuverability.

RS32+

Benefits

- One button programmable switch for training-free operation
- On-board digital solution mixing system improves working efficiency
- Touch panel control system is state-of-the-art and user friendly
- Heavy-duty construction for maximum durability
- No tools needed for changing parabolic squeegee blades
- Variable pad pressure up to 165 lbs
- Gimbal-mounted pad drivers for easy pad loading/unloading and better scrubbing performance
- Automatic braking and parking
- Emergency shutdown system and safety lighting
- Compact design enables cleaning of narrow aisles and tight areas with maximum maneuverability
