

i20NBT

Traction Drive Auto Scrubber

i20NBT is a 20" self-propelled unit designed specifically for professionals like cleaning contractors. We know a busy schedule can mean that doing a job with speed is often as important as doing it well. That's why the i20NBT has an oversized tank capacity of 15gal, up to 99lb of pad pressure, and parts made of die-cast aluminum and steel. This machine is durable, efficient, and easy to transport.

Downtime is wasted time. Money spent on replacement parts takes away from your bottom line. At ICE USA, we understand that you use our machines as hard as possible to do your job, and we recognize that sometimes maintenance is a necessity. That's why our auto scrubbers come with a 5 year warranty. We have faith that we provide the best equipment possible, but if anything happens— we're here for you.

i20NBT

Benefits

- Intuitive, ergonomic controls for simple operation
- Large 15-gallon solution tank improves working efficiency
- Two pad pressure settings for flexible cleaning
- Batteries, on-board charger, pad driver, and squeegee assembly included
- Quickly change-out squeegees, pads, or brushes without tools
- Traction-drive or pad-assist drive based on facility needs
- Filter assembly and auto-float shutoff protects vacuum motor
- Heavy-duty die-cast aluminum brush deck
- Front red strobe light supports safety while cleaning
